jayahirrao22@gmail.com Jay-Ahirrao @coder_jay_01 Portfolio

## Skills

**Languages:** Java, C, C++, JavaScript, Python, TypeScript, SQL, HTML5, CSS3
**Frameworks and Libraries:** React.js, Express.js, Spring Boot, Tailwind CSS, Mongoose
**Databases and Developer Tools:** MongoDB, MySQL, Git, Docker, Azure, Postman, Linux
**Core Computer Science:** DSA, OOP, DBMS, OS, CN, System Design basics

## Projects

**EveryTube** | *Messaging & Video Sharing Platform* **2025 – Present**

- Strengthened application security by **30%** through JWT-based authentication, RBAC, and protected media access.
- Developed scalable REST APIs handling **100+ concurrent requests** with optimized routing on a VM.
- Validated system stability using Postman and load simulation tools.
- Tech Stack: **MERN Stack, JWT Authentication, RBAC, REST APIs, Shadcn, Azure VMs**

**SereniStay** | *A full-stack Airbnb-inspired site* **2024**

- Implemented role-based access control within an MVC architecture, improving workflow efficiency by **20%**.
- Reduced UI development effort by **30%** through reusable EJS templates and Bootstrap layouts.
- Improved application security and reduced errors by **40%** using **centralized** error handling and **Joi** validation.
- Tech Stack: **Node.js, Express, Mongoose, EJS, CSS, Bootstrap, MongoDB, Render**

**HMM** | *Desktop app for college hostel merit list creation and management* **2024**

- Automated hostel merit list generation for **300 students**, reducing manual processing effort by **80%**.
- Streamlined student data collection using Google APIs, reducing verification time from **15 days to 1–2 days**.
- Improved merit calculation accuracy by **90%** through rule-based ranking logic.
- Tech Stack: **Java, AWT, Swing, JDBC, MySQL, Google Forms, Sheets, and Drive APIs**

## Experience

**Sumago InfoTech** **On-site – Nashik**
*Web Development Trainee* **Jan 2024 – Jun 2024**

- Developed backend features for MERN-stack applications, including RESTful APIs and JWT-based authentication.
- Worked in an Agile setup using Git, building modular APIs and using Postman for API testing.

**Suzlon** **On-site – Dhule**
*Backup Engineer* **Jul 2024 – Aug 2024**

- Maintained **LAN/WAN network infrastructure** across 15–20 remote sub-offices to ensure **system availability**.
- Troubleshot **hardware, software, and network connectivity issues** at windmill sites, both onsite and remotely.
- Managed **IT asset deployments** and **Outlook 365 account provisioning** as part of system administration.

## Achievements

- Won GDG Cloud Pune's Build and Grow AI Hackathon 2.0 at Pune and qualified for Finals in Mumbai.
- Won a coding competition at Government Polytechnic, Nashik, ranking **1st** among peer participants.
- Participated in **5+ hackathons**, collaborating with teams to design and deliver end-to-end technical solutions.

## Responsibilities

**Google Developer Groups on Campus (GDGoC)** **Jul 2025 – Present**
***Co-Lead*** — *Cloud Domain*

- Coordinated and managed on-campus GDGoC events and workshops, contributing to planning, logistics, and execution with the core team.

## Education

**JSPM's Rajarshi Shahu College of Engineering, Pune** **Sep 2024 – Jul 2027**
*B.Tech in Information Technology* | *CGPA:* ***8.87***

**Government Polytechnic, Nashik** **Jun 2021 – Jul 2024**
*Diploma in Computer Technology* | ***90.88%***
