Summary

Software Engineering Intern — DS & Algorithms, JavaScript, Scalable Backend Systems, OOP, MERN Stack Development

Education

JSPM's Rajarshi Shahu College of Engineering, Pune | B.Tech in IT (CGPA: 8.88)

Sep 2024 – May 2027

Government Polytechnic, Nashik | Diploma in Computer Technology (90.88%)

Jun 2021 – Jul 2024

Skills

Languages: Java 17, JavaScript (ES6+), TypeScript, SQL, HTML5/CSS3

Frameworks & Libraries: Node.js, Express.js, React.js, gRPC, Tailwind CSS, Mongoose

Databases & Cloud: MongoDB, MySQL, Azure (VM), Docker

Tools & Fundamentals: Git, Postman, Linux, DSA, OOP, DBMS, OS, CN, REST APIs, MVC Architecture

Projects

EveryTube | LIVE | GitHub | Full-Stack Media Project

2025 – Present

- Developed a secure auth flow using **Access/Refresh tokens** and **HttpOnly cookies** for protected session management.
- Used **MongoDB Aggregation Pipelines** to handle **multi-collection data joins** for channel profiles and watch history.
- Integrated **Cloudinary** for media uploads, implementing local server cleanup logic to ensure efficient storage usage.
- Centralized backend logic via **custom API utility classes** & global error-handling middleware for uniform responses.
- Tech Stack: **Express.js, MongoDB, Node.js, JWT Authentication, Cloudinary, Multer, shadcn/ui**

SereniStay | LIVE | GitHub | Airbnb-inspired Travel Platform

2025

- Built a full-stack application following the **MVC pattern** with **EJS-Mate** for modular layout and template management.
- Built **Mongoose** Middleware to automate cascading deletes, maintaining referential integrity across related collections.
- Managed user authentication and sessions using **Bcrypt password hashing** and **MongoDB persistent storage**.
- Enforced data integrity at the API layer using **Joi Schema Validation** for all property listing and review inputs.
- Tech Stack: **Express.js, Mongoose, EJS, CSS, Bootstrap, MongoDB, Docker, Render, RBAC**

EduGen | LIVE | GitHub | Generative UI based EdTech Platform (GDG Pune Hackathon Winner)

2025

- Integrated **Gemini APIs** to power a Generative UI, dynamically rendering adaptive interfaces based on user prompts.
- Architected a high-performance backend utilizing **gRPC** and **Microservices (SOA)**, enabling low-latency communication between distributed system components.
- Secured a **Top 2 finish (EduTech Domain)** among 50+ teams by successfully demonstrating complex API consumption and scalable backend design within a 48-hour limit.
- Tech Stack: **gRPC, Gemini API, Microservices, Node.js, Next.js, shadcn/ui, Design OS**

Experience

Suzlon Energy

Jul 2024 – Aug 2024

IT Support Engineer (Interim) - Dhule, Maharashtra

- Maintained LAN/WAN network infrastructure across 15–20 remote sub-offices to ensure system availability.
- Troubleshoot** hardware, software, and network connectivity issues at windmill sites, both onsite and remotely.
- Managed IT asset deployments and Outlook 365 account provisioning as part of **system administration**.

Sumago InfoTech

Jan 2024 – Jun 2024

Web Development Trainee - Nashik, Maharashtra

- Developed backend features for **MERN-stack** applications, including RESTful APIs and **JWT-based authentication**.
- Worked in an Agile setup using Git, building modular APIs and using Postman for API testing.

Achievements & Leadership

- Won** GDG Cloud Pune's Build and Grow AI Hackathon 2.0 at Pune and qualified for Finals in Mumbai.
- Won** a coding competition at Government Polytechnic, Nashik, ranking **1st** among peer participants.
- Participated in **6+** hackathons, **collaborating** with teams to design and deliver end-to-end technical solutions.
- GDGoC, Co-Lead (Cloud Domain)** (Aug 2025 – Present): Directed HackNova campus hackathon **managing** technical evaluation and mentor coordination for 50+ teams ; led GCP workshops upskilling **200+ students** on container deployment.
